Senior Product Designer and UX Strategist with 18+ years of experience turning complex business problems into clear, scalable digital products. Ex-IBM and Dell, with experience spanning enterprise software, SaaS, mobile, design systems, information architecture and visual storytelling. Today, I partner with startups, NGOs, SaaS companies and enterprises on product strategy, UX/UI design and design-system creation.

Workflow engineering · 5 stakeholder roles · multi-country

Jan Seva

Mobile / public services · 8 user roles · grievance management

WHY CLIENTS HIRE ME

I bring **enterprise-grade design thinking** without enterprise overhead: I can move from strategy to screens, prototypes and systems, while keeping business goals, technical constraints and real user needs aligned. My work is especially suited to products that are complex, fragmented or ready to scale.

CLIENT / LEADERSHIP FEEDBACK

"Your insights on user experience design and creative input made a real difference."

"Magesh helped us rethink the entire user journey and brought a much stronger visual direction."

"He quickly understood what we were trying to achieve and brought structure to the design process."
